

Precision engineered fibers and yarns

Technical textile experts for
commercial and industrial markets

ICF is a family-owned technical textiles leader in the manufacturing of fiber and yarn. ICF leverages over a century of expertise delivering high-quality, precision-engineered products from our ISO-certified, state-of-the-art manufacturing facilities in New Jersey, USA.

ICF's ISO 9001-2015-certified process ensures exceptional traceability, safety, and consistency. By offering proof-of-concept through research and development, manufacturing, consulting expertise, and robust supply chain management, we empower our clients to innovate and bring life-saving solutions to market with efficiency and confidence.

As industrial textiles manufacturers and distributors, we understand the precision, compliance, and rigorous quality standards expected of us by our commercial customers.

For technical and industrial sectors, we create **specialty fibers** that solve complex challenges, including **flame-retardant apparel, UV-resistant textiles, and antimicrobial solutions.**

Our advanced manufacturing capabilities and **ISO-certified processes** deliver materials customized to exact specifications, and **manufactured in the United States.**

With a focus on U. S.-based **manufacturing, consulting, supply chain efficiency, and strategic product development,** we help organizations innovate and meet evolving industry demands while optimizing costs and lead times.

Customized Manufacturing

ICF utilizes the latest twisting and plying continuous filament fiber processing equipment. ICF can commission process customer owned yarn or provide the specific fiber, exact twisting and precise winding required for virtually any project small or large. The finished product is precision wound onto packages sized and configured per your specifications. Both cones and tubes are available for winding.

Product offerings:

- Solution dyed rayon
- Polyester
- Inherent flame retardant polyester
- Anti-microbial polyester
- Nylon 6, 6.6
- UV resistant polyester
- Monofilaments PET, PA, PA 6.6
- PP & PBT
- Inherent filament FR rayon
- Filament industrial rayon

Distribution Offerings:

- High performance sewing threads for technical applications
- Flame retardant filament rayon
- High tenacity filament rayon
- World-class quality filament rayon

Ask about our in-house twisting and plying specialty applications

We follow ASTM procedures to ensure our products perform to the highest quality level

Our in-house laboratory allows us to perform all required tests in order to issue a final CoA and facilitate process control.

TECHNICAL TEXTILE EXPERTS FOR THE COMMERCIAL MARKET

ICF Mercantile Distribution Offerings

ICF Mercantile is a trusted distribution partner with Liberty Threads, Indorama Ventures/Glanzstoff Group, and Enka, offering a diverse portfolio of high-performance technical fibers.

Our distribution capabilities include high performance sewing threads, high-tenacity and flame-retardant filament rayon, industrial-grade, and world-class quality industrial filament rayon trusted for demanding commercial applications.
